

Cultural Activities

The Department promotes cultural activities among its components and, for this reason, among other actions that it has carried out, since 2009 it has set up a month dedicated to the exhibition of plastic arts works of its members (PVCFPPLASMA exhibition) organized by Dr. Vicente Medina. With the exception of the first year that the leitmotif of the exhibition was the personal vision of the department, each year the leitmotif coincides with the international declaration that is commemorated during the year. The exhibition is supported with the help of the UdL Culture Committee and collaborating companies. The awarded works in different years have been the following:

Any 2018. Any Internacional dels Esculls de Corall, de la Biologia Matemàtica i del color “Ultraviolat”

Any 2017. Any Internacional del Turisme Sostenible per al Desenvolupament (2017)

Any 2016.

Any 2015. Llum i les Tecnologies basades en la Llum , Sòls, Avaluació i IV Centenari de la publicació de “El Quijote”
